## **Candace Blake Debuts Luxurious, Sexy Footwear Collection**

For her premier collection, Candace Blake is all about “sleek and sexy corporate.” Bringing a much-needed injection of style to the office attire, a Candace Blake design is ideal for power sessions at the office as well as for after-hours soirees. Striking and vibrant, the collection is comprised of over a dozen must-have contemporary styles.

The 24-year-old New York native and former Nine West showroom employee is ready to make her mark in the footwear industry with her upscale line. Launched in late 2004, Candace Blake offers fashionistas more selections to diversify their closets than the typical Manolo Blahniks and Jimmy Choos. Her gorgeous designs have captured the interest of R&B Artists Alicia Keys, Keyshia Cole, and T-Boz along with Actress Elise Neal.

“People want fresh, new talent and I have it,” Blake says, confidently.

Her designs are sure to send the Carrie Bradshaws of this world into a shopping frenzy. Who cares about rent when you step out in one of these sought after, stunning numbers?

“I love high heels,” the designer states. “What better way to feel sexy and alive and get that attention you want?”

Sure to be envied by fashion-conscious women is Fierce. The 3-inch heel features a zebra-print pattern made from pony hair in luscious brown, cream and black. Want to leave him dazed after that first date? Wear Stun. In rich camel leather, this favorite has a jolt of red in the front, as well as a red leather lace-up corset in the back.

“Wearing anything from my line will add to a woman’s persona and style. I want my customers to be confident and satisfied with the way they look and feel.”

Whether she is 18 or 45, Candace Blake shoes are ideal for sophisticated, professional women who enjoy going out and living life. They love looking sexy and standing out in a crowd.

With several other gorgeous pairs of high-heel boots and pumps, also named after characteristics of her clientele, Blake’s fall/winter 2005 collection is sure to add pizzazz to any outfit. Ranging from \$180 to \$500, Candace Blake is the perfect finishing touch for any outfit. Available directly from the designer, the collection is in such a high demand that there is currently a waiting list for the fourth re-order.
